SHELTERING IN PLACE INSTRUCTIONS:

Sheltering in Place is a method to help keep contaminated air out of your home. When advised, immediately follow these steps:

- Go inside your home or workplace. Bring in your pets if possible. Grab your disaster supply kit and choose a room upstairs with few or no windows.
- Close all doors and windows. Use duct tape, wet rags or similar materials to seal air leaks around doors and windows if necessary.
- School children will be safe with school officials who are prepared to take special care of them. DO NOT go to the school to pick up your children.
- Do not use telephone lines. They will be needed for emergency personnel.
- Stay inside until your TV, radio, or an official announces that you may safely leave. If the emergency involved hazardous materials, authorities will notify you when to open windows and doors to ventilate the building.
